Bud M

Bud is generally a sensible pony in all respects, he is good in traffic and is excellent to hack alone or in company. However, he is an intelligent pony who needs a confident and experienced rider.

Benjie M10

He is easy to handle and is good for the vet and farrier. Benjie can get stressed when left alone. Benjie has had laminitis in the past so will need careful management. He is currently living in with day turnout.

Maggie F

Maggie is a very 'good doer' and is happy to live out all year round, currently with a group of mares. She has been fed hay over the winter and should need no other feed, but she may need a new Zealand rug when the weather is cold.

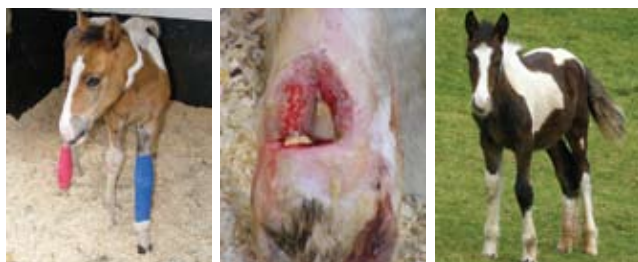

CB (Over the Top) F

A pretty grey mare who is looking for a hacking home with an experienced and confident borrower. She returned to the farm and was found to be suffering from bone spavins. It has taken some time to rehabilitate her but she has come along well.

Registered Charity No: 1014256

VULNERABLE PONIES LIKE WARRIOR NEED YOUR HELP!

At only a few months old Warrior was seriously injured in a terrible accident with barbed wire. His injuries were life threatening and he needed 24 hour care and daily veterinary visits. He had less than 50% chance of survival. After months of care by dedicated staff Warrior is now fit and well and growing into a handsome boy.

Donations and legacies are desperately needed to help us continue to save the lives of so many precious ponies like Warrior.

A World Free From Cruelty and Suffering

Help make
our vision
for the
future a
reality

Orphaned baby James was abandoned and left to die. HorseWorld was the only charity able to rescue him. This tiny baby's life was saved thanks to people like you who left HorseWorld a gift in their Will.

Help make a HorseWorld of difference to neglected and mistreated horses, ponies and donkeys.
